## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 3, 4, 6-9, 13, 17-23, 28-31, 36 and 37 are rejected under 35

U.S.C. 102(b) as being anticipated by Kondou et al. (U.S. Patent 5,221,893).

Kondou discloses deterioration diagnosis method of calculate the corrosion loss/contamination level of metal to expose days under atmospheric condition as function of environment (col. 9, lines 3-16, abstract), using temperature as environmental variable (col. 5, lines 25-58), deterioration/ contamination calculation (fig. 5), computer readable medium (fig. 1-3), under atmospheric condition (col. 1, lines 17-39), life span of the metal on corrosion speed on graphical output results (fig. 2, 3, 4).

### ***Allowable Subject Matter***

2. Claims 5, 10, 11, 12, 14, 15, 16, 24, 25, 26, 27, 32-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance: Prior art fail to show the calculate the corrosion using filter paper method, gas absorbed, metal is copper, using linear expression of a square root calculation, deterioration index, use on silver, electronic circuit and wiring, use of anions, chlorine, ions, nitrate ions, sulfate ions chemical material, use vibration rate, wire breaking time of pattern and insulation resistance of conductors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

3. Applicant's arguments with respect to claim 1-37 have been considered but are moot in view of the new ground(s) of rejection. However, applicant's arguments filed 1/14/2003 have been fully considered but they are not persuasive.
- 

### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
